WICKHAM TALKS TO GOOD PEOPLE

the promise was broken, the worst tariff law the country has ever known was passed, and the Republican party proved once more that it cannot be trusted to legislate for the welfare of the average man.

It is not to be thought, however, that the people will continue to endure this wrong. To think so would be to despair of the republic. Recent congressional elections in New York and Massachusetts, where Democrats were elected in rock-ribbed Republican districts, and the grave doubts of the re-election of Congressman Dalgell in the Pittsburg District, show that the people are awake to the overwhelming importance of the tariff issue. There is much ground for hope that the next Congress will be Democratic. It is vitally important therefore that in Democratic districts no man should be returned whose record on this issue is doubtful.

In the next Congress the danger to tariff reform will come, not from the open, but from the concealed protectionist, from him who is a Democratif or their districts and a Republican for his own.

If I am honored with a seat in Congress from this district a hall hold myself bound by every consideration of self-interest and of moral obligation to use my best efforts to perform these duties, which I classify, as I conceive, in the order of their relative importance. First, to secure the passage of such laws as shall promote the happiness and welfare of the hundred millions of people living in this country and its dependencies; second, to secure such appropriations for this district as its needs require, consistent with a wise and economical expenditure of the eadministrative branches of the hundred manufacturing community such as business before the departments and business before the departments and the daministrative branches of the government at Washington. I realize in a great commercial and manufacturing community such as business before the departments and the administrative branches of the government at Washington. I realize in a great commercial and manufacturing community such as district as its needs require, consistent with a wise and economical expenditure of the people's money; and third to assist, with energy and without favoritism, every constituent who has business before the departments and in the administrative branches of ine government at Washington. I realize in a great commercial and manufacturing community such as ours much of this quasi-public work must and ought to be done by the people's representative in Congress. And, finally, in all matters of political duty I shall 'feel myself bound by the Democratic platform,

When the time shall come that my connscientious convictions will not suffer me to stand on that platform is hall resign and return my commission to the party that gave it.

Very respectfully,

T. ASHBY WICKHAM.

A revival of the famous comedy, "Niobe" by the Benjamin Players at the Academy this week is almost the talk of the town. The comedy is light and airy, and the fun is handed across the footlights with such speed. The severity for the pland in the Capitol Square, where thousands of people were receiving The Times-Dispatch returns from the fight, was fined \$5.

RED NOSES CLEARED

Effect of Posism, the New Skin Remedy, is immediately Perceptible.

"I have been troubled with red nose and eczema for nearly eight years until I discovered poslam, the new magic cure. My face was a sight, and I was asbamed to be seen on the street. I was surprised to see the improvement after a month's treatment, and I have a nice, clear complexion from which the pimples and my red nose disappeared like magic," says Charles F. Slutter, Wilkeebarre, Pa. "My nose would be like a boil," says Carl D. Steinhoff, Columbus, O. "not only painful, but embarrassing. I have given poslam a thorough trial. My face became smooth and fair. My nose is a natural color and does not get sore."

Poslam is the new skin remedy, naturally flesh-colored, which heals and hides all skin imperfections. Although primarily intended for eczema—stopping the litching with first application and rapidly restoring the health of the skin—poslam shows immediate and surprising results when used for less serious skin affections, such as pimples, rash, blotches, inflammations, etc.

Poslam is on sale in 50-cent boxes and \$2 jars at all druggists, particularly Tragle's. A free sample may be obtained by mail in plain wrapper by writing to the Emergency Laboratories, 32 West 25th Street, New York Street.

Japan being victorious, claimed supremacy over Korea, and the claimed supremacy over Korea, and the Portsmouth treaty of peace gave Japan a "free hand" in Korea, resulting in the establishment of a protectorate in Korea, in order to protect Japanese interests in the Far East. The Koreans were strongly opposed to this, and it has aggravated their deep-seated feeling against the Japanese, resulting in the assassination of Prince Ito.

Ito,
Speaking of the Christianizing of
Korea, he said the hope of the nation lies here, and that while past experiences has led the Koreans to lose
faith in almost everything, yet in the gospel of Jesus Christ they find hope for eternity.

SOUTHERN ROADS MAY RAISE RATES

Interstate Commerce Commission

At the Interstate Commerce Commission offices no official word has been received concerning increases of rates in the South, but it is well understood that if such notices come in they will cause no surprise to the commission.

The Southern roads have not shoved up rates recently, as have the roads in other parts of the country. At the same time there in no doubt the roads in Southern territory are behind the Eastern and Westorn roads with respect to amount of earnings. Some of the Southern roads are poor.

It was stated to-day that at almost any time the commission might receive notice from the Southern, Seaboard Air Line, Atlantic Coast Line, Louisville and Nashville and other Southern lines of such intended increase.

Connor made the order suggested.

Arthur Taliaferro, colored, was arrested last night on a charge of stealing a pair of Storm W. P. Veltch.

Alice Anderson, colored, was arrested on a charge of cruelly beating a horse, Charles M. Harris, colored, was arrested on a charge of cruelly beating a horse.

mammy. I went out there determined to turn the trick, and I had no trouble in doing it."

After shaking hands with a few friends Johnson returned to the car and seated himself next to an open window beside his wife. Three young roughs walked to the open car window and applying a vile epithet to Johnson in the presence of his wife, dared him to come to the platform. Johnson started to his feet, but one of his companions drew him down again. The rowdles rushed to the rear platform where one of them was met with a kick from the foot of one of Johnson's trainers and a mouthful of tobacco julce in the eyes. Officers rushed up and forced the crowd back.

The doors of the car were locked and the conductor waved the engineer to pull out. Several threats of shooting were made by the rough crowd that had gathered about the car, but no weapon was displayed.

In speaking of the fight, Johnson said that in the first few rounds, when he pushed Jeffries back several times, he felt that he was the master of the situation. The crisis of the fight was reached in the seventh round, said the champion. In this round, he landed an effective stomach punch, followed by a blow to the jaw, He said that

he knew then that Jeffries was at

As a result of the experience at the union station to-night, the railroad officers placed two detectives on the train to accompany the champion to Compha.

Johnson intends going direct to New York, where he opens his theatre en-gagement Monday evening.

Telegraph Records Smashed.

New York, July 5.—Officers of both the Western Union and Postal Telegraph Companies said to-night that the sending of fight news out of Reno vesterday broke all telegraph records for a single day's work. More than 800,000 words went sent at an average of 2 cents a word. The space given by seven New York newspapers was 121 1-4 columns, and it is estimated that the papers in this city alone paid \$6,000 in telegraph toils.

Interstate Commerce Commission
Expects Notice of Increases.

Washington, D. C., July 5—An increase in freight rates by raliroads in the Southeast is confidently looked for by the Interstate Commerce Commission and leading railroad lawyers here. Though nothing could be gotten to-day showing positively that this would be done, there are indications that the roads are preparing to take care of themselves in the matter. He promised me this on his last night in Chicago, before he went to California to begin training. He said positively he would quit, and I expect he will."
